Top Five Lowest Stages

Period of Record - 1993 to 2012

Date	Crest (ft)	Flow (cfs)	Remarks
1/15/2000	1.38	3	Also occurred 7/26 - 27/1999
2/2/1993	1.40	4	none
8/20/2002	1.43	4	Also occurred 8/10 - 11/1999
7/20/2006	1.48	11	Questionable - Data is limited for this time frame. Also occurred 12/24/2001
9/14/2005	1.55	11	none

Additional Low Stage Information

Date	Crest (ft)	Flow (cfs)	Remarks
10/22/2001	1.63	14	none

This is an old site and not used anymore. It is listed for historical records only.

Additional Remarks

Low water records are somewhat limited. Therefore some low stages could be missing. Our low stage listing will include valid and sometimes questionable stages. In some cases we will include a brief list of questionable stages. Therefore, some low stages could be missing. In some cases we didn't list the low stage since it was unclear if the readings were due to a gauge malfunction and we didn't have enough data to determine its validity. We will also list a recent low stage (if found) if there hasn't been any top 5 low stages in the last 15 years. Please contact the USGS if you need more information on low stage data.
